

# Full-time blogging is a dream come true for Plant Power Couple

BRITTANY AND TERRENCE NEEDED TO INCREASE THEIR INCOME ASAP.

After Terrence left his teaching job to work with Brittany on their blog, [Plant Power Couple](#), they pushed hard to grow their revenue. And still, their savings dwindled. They knew they had to make more money soon or return to 9-5 jobs.

*In May 2022 they signed up for the Eat Blog Talk Mastermind with a massive vision.*

**Their goal:** Make \$60K by Terrence's 50th birthday in October.

**What they learned:** How to become rock-solid SEO strategists using Rank IQ and Google Search Console.

**Results:** After two months, their income was the highest it's ever been. A single check from Pinterest Rewards was more than Terrence's former monthly salary. Their first SEO-optimized post doubled their traffic.

**And they are on track to reach their goal of \$60K by October!**
